Professional Summary

TY B.Sc. IT student with hands-on experience as a Junior Software Developer Intern working on live web and mobile applications. Experienced in software development, manual testing, API testing, bug identification, regression testing, and production application testing. Familiar with development and AI-assisted coding tools including Claude Code and Antigravity. Currently learning Playwright automation testing and CI/CD practices, with a strong interest in QA and SDET roles.

Experience

Nexcore Alliance LLP March 2026 – Present
Junior Software Developer Intern *Mumbai, India*

- Working on live web and mobile applications involving software development, testing, debugging, and maintenance.
- Performed manual testing on production and development applications to identify functional, UI, and workflow-related issues.
- Performed sanity, regression, functional, and exploratory testing across web and mobile applications.
- Identified, reproduced, documented, and reported bugs found in live applications and coordinated with the development team for resolution.
- Performed API testing using Postman to validate API requests, responses, status codes, and application workflows.
- Worked with Git and GitHub for source code management and collaborated with team members during development and testing activities.
- Used AI-assisted development tools such as Claude Code and Antigravity to support coding, debugging, and development workflows.
- Currently learning Playwright for test automation and CI/CD practices to improve automated testing capabilities.

Education

Bunts Sangha Annalella College Expected 2027
TY B.Sc. Information Technology *Mumbai, India*

Technical Skills

Testing: Manual Testing, Sanity Testing, Regression Testing, Functional Testing, Exploratory Testing, Bug Reporting

API Testing: Postman, REST API Testing, Request/Response Validation

Automation: Playwright (Learning), Test Automation

CI/CD: CI/CD Concepts (Learning)

Development Tools: Git, GitHub, VS Code

AI Development Tools: Claude Code, Antigravity

Technical Skills: Web Application Testing, Mobile Application Testing, Debugging, Software Development

Soft Skills

- Leadership and Team Collaboration
- Problem Solving
- Critical Thinking
- Client Management
- Communication
- Adaptability and Quick Learning
